

Sydney Hospital & Sydney Eye Hospital

Peri-Operative Ophthalmic Practice

Venue: Worrall Lecture Theatre, 1st Floor, Worrall Block (unless specified)

CPD: 1 day (7 CPD hours)

Dates: 13th April

Time: 0830 – 1630

One day workshop aims to develop registered nurses and other health professionals knowledge and practice of Infection Prevention and Control principles related to ophthalmic practice. It is anticipated that on completion of the workshop the participant will be able to:

- Understand the principles of Standard and Transmission Based Precautions related to ophthalmic practice
- Understand the patient risks for healthcare acquired infections
- Understand common eye infections
- Discuss single use vs re-useable items in ophthalmic practice
- Discuss the principles of cleaning, disinfection and sterilisation of ophthalmic equipment
- Identify the infection prevention and control issues in the ophthalmic clinical environment
- Understand how to liaise with the infection control nurse for better ophthalmic care
-

Course fee

\$140
